

Panneaux SGH

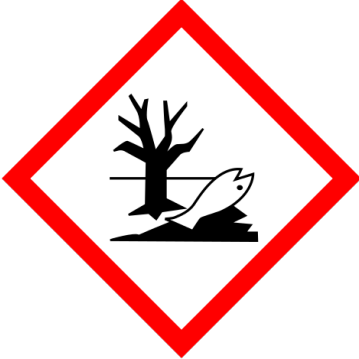

Le système général harmonisé de classification et d'étiquetage des produits chimiques (abrégé « système général harmonisé », SGH ; est un système international d'étiquetage des matières dangereuses (avec indications tactiles de danger pouvant être lues par des personnes non-voyantes le cas échéant).

Basé sur une nomenclature associée à des numéros, des pictogrammes et mentions de danger, il unifie les anciens systèmes nationaux, unification rendue indispensable par la mondialisation du transport et du commerce des produits chimiques dangereux et par une utilisation croissante de certains de ces produits.

SGH01 - Explosif	SGH02 - Inflammable	SGH03 - Comburant	SGH05 - Corrosif
 A black pictogram of an exploding bomb with several lines radiating outwards, enclosed in a red diamond-shaped border.	 A black pictogram of a flame, enclosed in a red diamond-shaped border.	 A black pictogram of a flame with a circle in the center, enclosed in a red diamond-shaped border.	 A black pictogram showing two test tubes pouring liquid onto a surface and a hand, with flames rising from the contact points, enclosed in a red diamond-shaped border.

Panneaux SGH

SGH05 - Corrosif	SGH06 - Toxique	SGH07 - Irritant	SGH08 - Cancérigène	SGH09 - Polluant
 The corrosive hazard symbol (SGH05) is a black and white illustration showing two test tubes. One is pouring liquid onto a surface that is being eaten away, and the other is pouring liquid onto a hand that is being burned. The entire symbol is enclosed in a red diamond border.	 The toxic hazard symbol (SGH06) is a black and white illustration of a skull and crossbones. The entire symbol is enclosed in a red diamond border.	 The irritant hazard symbol (SGH07) is a black and white illustration of a large exclamation mark. The entire symbol is enclosed in a red diamond border.	 The carcinogenic hazard symbol (SGH08) is a black and white illustration of a human silhouette with a starburst pattern on the chest, indicating cancer. The entire symbol is enclosed in a red diamond border.	 The pollutant hazard symbol (SGH09) is a black and white illustration of a dead tree and a dead fish. The entire symbol is enclosed in a red diamond border.
